KITCHEN SPLASHBACKS

THE ENVIRONMENT AND VISTELLE

Vistelle is formulated to have as minimal impact on the environment as possible.

The Vistelle manufacturing process does not release any harmful emissions to the environment. Vistelle is hygienic and does not promote bacterial growth or transmission making it a safe and healthy choice for your home.

Vistelle® is rich in colour and reflects light evenly making it ideal for kitchen splashbacks!

Being completely smooth it repels splashes, is easy to clean without the need for harsh chemicals; soap and water will do the trick!

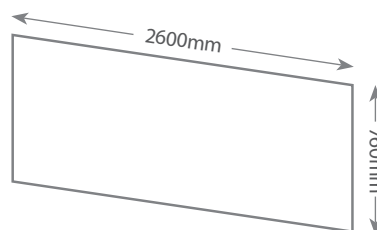

Why have a glass splashback that is heavy, costly and can't be cut or shaped by you? Vistelle panels are light, affordable and can be cut, drilled and shaped with standard wood working tools.

Vistelle - Styled by You!

- Easy DIY installation
- Superior flatness and exceptional high gloss
- 10-year indoor UV warranty
- Lighter and easier to handle than glass
- Many times greater impact strength than glass
- The colour is integrated into the product, not a spray painted finish
- Waterproof

Sheet Size:

2600mm x 760mm x 4mm thick

Vistelle is suitable for use behind electric and induction cooktops in most situations. (Not suitable behind gas cooktops)

CLEANING VISTELLE PANELS

Because Vistelle is user friendly and environmentally engineered we have created a surface that does not need harsh chemicals or effort to clean it.

With Vistelle, cleaning is simple. Best results are achieved by using a soft micro-fibre cloth or chamois with a non-abrasive soap or common household detergent in warm water.

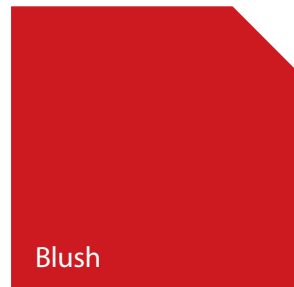

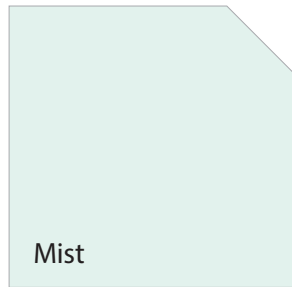

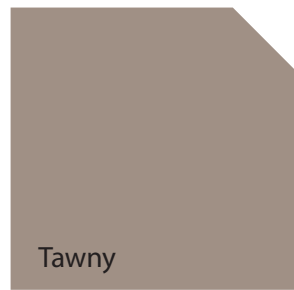

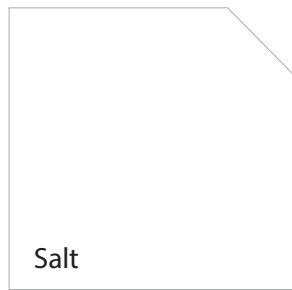

Vistelle Kitchen Item Numbers

	Salt	Tawny	Eclipse	Mist	Blush	Sky
2600mm x 760mm x 4mm	2666218	2666219	2666220	2666222	2666223	2666221

VISTELLE COLOUR RANGE

With six modern décor colours available in the range - Vistelle is a beautiful home renovation acrylic alternative to tiles and glass panels.

Style your home with Vistelle – and forget all the hassle!

VISTELLE INSTALLATION GUIDE *

Vistelle is so easy and quick to install into any kitchen - adding great value and style.

INSTALLATION MATERIALS:

- Neutral cure translucent silicone 1 x 300g tube per panel
- Double sided mounting tape 12mm wide - 8 metres of tape per panel

1. TOOLS & MATERIALS:

- Power saw, jigsaw, drill, sandpaper, protective equipment, neutral cure silicone, a spatula and double sided tape.

2. AREA PREPARATION:

- Ensure the walls are smooth, clean and dry. All substrate wall linings must be sealed at the joints with silicone or waterproofing compound.

3. MEASURING & MARKING OUT:

- Measure the walls and mark up the panels.

4. CUTTING:

- Use a circular or table saw with fine tooth blades for straight cuts.
- Use hole saws and twist drills for all openings.
- Use blunt drill bits when drilling Vistelle.
- Jigsaws with fine tooth blades can be used for short and curved cuts.
- Always use sacrificial material underneath Vistelle when cutting or drilling.

5. EDGE FINISHING:

- All sawn edges must be sanded or planed smooth prior to installation of Vistelle panels.

6. PANEL INSTALLATION:

- Scuff the rear colour surface with coarse scouring pad or 120 grit sandpaper.
- Apply a 6 mm bead of translucent neutral cure silicone in a wavy pattern between each tape strip.
- Run a bead of silicone on the rear of the panel around any holes or cut outs.
- Seal the joints with neutral cure wet area silicone. Once gap is filled, remove excess silicone using a soft flexible plastic spatula.
- After the silicone is applied, remove the outer protective film or masking tape in one continuous movement to achieve the best finish.

* Always refer to instructions contained in Vistelle box
